

EASY INSTRUCTIONS:

Remove top from Trap. Tilt jar & add 1/4 cup water & 2 drops dish soap. Remove lure from foil pouch and pin to bottom of top. Replace top; clean any spills with soapy water. Wash hands after use.

Suggestions: Place trap in pantry or kitchen near where pantry moths have been seen. Remove any source of moth breeding, such as old bird seed or pet food. Sanitation will reduce moth populations. Pheromone Lure is effective for 45 days. When the trap becomes full, empty and wash trap with soap and water.

DO NOT TOUCH LURE AS YOU MAY BECOME ATTRACTIVE TO PANTRY MOTHS! USE GLOVES OR TWEEZERS.

Do not use more than 2 traps at a time, otherwise moths may become confused

Keep lure out of reach of children.
